

NO PAPER.

There will be no issue of the APPEAL on Tuesday morning, as the entire force propose to celebrate the National holiday with their usual patriotism.

IMPROVEMENT IN TELEGRAPHY.

Professor Elisha Gray, of Boston is said to have made a discovery which promises equally extraordinary results as those obtained from the telephone. No patent has been issued or applied for, but the invention is protected by thirty-eight different caveats. Meanwhile the inventor is engaged in perfecting the general plan, which can best be described by the term auto telegraphy. It is claimed that it will be possible to write upon a sheet of paper and have an autograph facsimile of the writing reproduced by telegraph 300 miles away, and probably a much greater distance. Successful experiments thus far have been tried to about 300 miles.

The idea is not new. Years ago the writer of this was laughed at for endeavoring to perfect a plan by which whole pages of manuscript might be telegraphed as a single character may be transmitted at present. An entire message, no matter how long, if written on paper prepared in a peculiar manner, will some day be forwarded instantaneously and received by an instrument that will not require an operator any more than a mirror does to reflect the image of an object in front of it.

Many electricians believe that telegraphy will be so perfected that a person standing before a mirror in Carson, for instance, can call up the likeness of a friend or correspondent in New York and converse with him by means of sign language, writing, or by motion of the lips. Stranger things than this are being done daily and not wondered at. The writer claims to have first suggested the scheme and to be able to perfect it, but it will require a little capital. For further information apply at the APPEAL office.

The Railroad Charged With Scalping.

Adolph Ottinger, a ticket broker at 620 Market street, through Davis & Delmas, attorneys, has shipped a mass of affidavits, complaints, petitions etc., to the Interstate Commerce Commission at Washington, charging the Southern Pacific Company with unlawful discrimination.

According to the document T. H. Goodman, General Passenger and Ticket Agent, authorized Mrs. T. M. Randolph to sell the return portion of a ticket to New Orleans to Mrs. Sherman, which was done, the official writing on the ticket "good for passage of Mrs. Sherman if accompanying Mrs. Randolph." As Ottinger has had many second hand tickets taken from his customers because they had been transferred from the original purchasers, he thinks he has a good case against the railroad and besides having the Commissioners take action in the premises he will bring suit in the District Court for \$10,000.—San Francisco Report.

Jules Verne Outdone.

A circular has been received at the Navy Department from a Chicago man announcing that he has solved the problem of aerial navigation and is about to build a great air ship which will start out on June 1st of next year on a voyage of discovery to the North Pole. He estimates that a month's time will suffice for the voyage, allowing ten days or two weeks for scientific observation of the Arctic phenomena. The ship will carry 200 persons, and travel at a speed of 70 miles an hour. The inventor undertakes to carry with him representatives of the press and scientists. The essential feature of the discovery consists of a great cylinder built of thin plates of steel, to which the passenger car is attached. For the ascending force, instead of gas, a partial vacuum is used, and eight exhausting screw propellers, driven by electric secondary batteries, will propel the craft.

Forty employees of the Government Printing Office have been discharged, principally in the folding and binding departments.

AN OPEN LETTER.

SANTA CRUZ, CAL., June 3, 1887.

Dr. Prentice, 625 Sutter street, San Francisco—My Dear Doctor: Please allow me to congratulate you (as well as myself) on the success of your treatment in my case.

As I told you when we first met, two months ago, I had suffered untold agony for 21 years with the piles, often being unable to perform any manual labor for weeks at a time, being compelled to resort to morphine to deaden the pain. Life seemed a burden and hardly worth living, the constant pain and irritation driving me nearly crazy, after trying many remedies without any permanent relief, I happened to see one of your advertisements and concluded to try once more, and thank the good Lord and Dr. Prentice, I am now a well man and again life seems worth living. I should be glad if some of my suffering friends of Norwalk, Florida, and Scotchman Maine, could be treated by you. Yours with gratitude, ROBERT WILLIAMS.

P. S.—At present I can be found at Spaulding's Saw Works, 17 and 19 Fremont street, San Francisco.

DEAFNESS.

To those suffering with Deafness; 165 liberated souls have been able to hear the voices of their fellow men.

DR. PRENTICE.

Is located at 625 Sutter street, San Francisco, Cal., until June 22.
